- Dr. Davin Wang, Chief Learning Officer, SIM Academy

1050 – 1130 **Networking**

Generative AI (gAI) holds immense potential for revolutionising the modern workplace, significantly enhancing productivity and efficiency. As adoption of generative AI in the workplace continues to grow, it also has impact on leadership, human capital management and on how we learn for the future of work.

Discover insights and learn how to harness gAI in our breakfast briefings in the following areas:

- ▶ Ethical considerations before integrating generative AI into your L&D and human capital management initiatives
- ▶ Learn how organisation structures will need to evolve
- ▶ Develop a deeper understanding of gAI and the programmes to improve human-to-human interactions

Don't miss out – secure your spot now for the L&D Breakfast Event Series (Oct 2023 edition)!

ABOUT THE L&D BREAKFAST BRIEFING SERIES

Providing perspectives and new ideas on modern workforce development to L&D leaders and practitioners in the age of generative AI.

Industry Insights: Hear from industry experts and practitioners on a series of curated topics, addressing opportunities and challenges that matter most to L&D leaders.

Interactive Discussions: Engage in lively discussions, share your experiences, and gain fresh perspectives that will invigorate your strategies.

Networking Opportunities: Connect and collaborate with fellow L&D enthusiasts, forging relationships that can fuel your professional journey.

Himanshu Tambe
Chief Delivery Officer,
INSORCE

Himanshu is currently the Chief Operating Officer at INSORCE, an augmented intelligence platform dedicated to optimising specific operations. Additionally, he is leading COSMODE Consultants, a forward-thinking consulting network specialising in digital-first products and self-serve consulting solutions.

Prior to this, as a Managing Director at Accenture, he has held several roles; leading the Talent & Organisation Consulting business across SEA; as the Global Leader for the Talent & Organisation Consulting CoE; as the APAC Leader for the Talent & Organisation Strategy practice; and as the Managing Partner of the Functional Practices in the Global Talent & Innovation Network.
